

Company profile

Union Investment Consultancy was established in 2000. With dynamic talents and a rich knowledge in foreign investment and trade regulations, Union focuses on providing consulting services to those foreign enterprises and individuals who are seeking to develop business in Dongguan and the Chinese market.

For years, Union has successfully provided consulting services to the world's top 500 commercial and logistic companies, as well as well-known European manufacturers in market research, market assessment and business development. We have assisted these companies to effectively establish business in Dongguan.

With the increasing demands on the international development of Chinese enterprises, Union, as a member of the EUCCC-European China Chamber of Commerce, is able to take advantage of the abundant opportunities to help both European and Chinese partners develop cooperation through its organization of the Economic and Trade Cooperation Conference.
